

Product difference Description for GR-32 & GR-32L

Basic Model: GR-32

Series Model: GR-32L

Model difference Description:

For this two products GR-32 and GR-32L, is exactly the same products, without any change in the shell or the internal structure and circuit. It is just type changed. Change of the model No., only for the convenient management purposes of different distributors and marketing in different regions. (ex: America & Asia)

The new model is introduced for marketing reasons, however we want to keep the documentation in the FCC database up to date with the products in the market.
